Allowable Subject Matter

Claims 1-8, 10-11, and 14 are allowed. The following is an examiner's statement of reasons for allowance: Regarding each of claims 1, 11, and 14, the prior art teaches a system, method, and computer-readable medium for using eye gaze to control the scroll rate and direction of information presented on a display. The prior art (i.e. U.S. Patent No. 5,850,211 to Tognazzini) explicitly teaches presenting an anchor position on the display, and scrolling the information presented on the display at a speed and direction responsive to the deviation of the user's gaze from the anchor position. Additionally, the prior art (i.e. U.S. Patent No. 5,867,158 to Murasaki et al.) teaches adjusting an anchor position used in scrolling the information presented on a display. No prior art, however, teaches or suggests dynamically, in real time, changing the anchor position via eye gaze, or in other words, adjusting the anchor position to the position of the user's gaze dwell, as is recited in each of claims 1, 11, and 14.

As each of claims 2-8 and 10 dependent on claim 1, and include all of the limitations of claim 1, each of claims 2-8 and 10 are considered allowable for the reasons in which claim 1 is allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
